## Carroll Township to face legal action

The Carroll Township Board of Supervisors were notified this week that Pauline Street, 32, of Mifflinburg, Pennsylvania intends to seek legal action against the township.

Streets' two daughters, Heather, age 9, and Michelle, age 12, were both killed in a traffic accident on May 14 of this year when the car, in which they were riding, collided with an unmarked Carroll Township Police cruiser.

There have been no criminal charges filed against the police officer, Sgt. James Fishel of the Carroll Township Police Department. It is unknown whether or not the Streets intend to file civil action against Sgt. Fishel.

Castle said he and the police department initiated the action by purchasing signs and posting notices on the property lines of the schools.

## Sportsman's Firearm Permit

York County Treasurer Shirley L. Glass reports that the new Sportsman's Firearm Permit is now on sale in her office. This new Permit replaces the Provisional Firearm Permit, previously sold to permit the carrying of certain firearms when hunting or fishing.

The new Sportsman's Firearm Permit is issued under authority of Act 158 of 1988 of the Commonwealth of Pennsylvania and in accordance with PA State Police regulations.

According to Mrs. Glass, the major changes in the permit are:

1. Permit now covers a five-year period from date of issue.

2. The permit is issued to the applicant, not for each firearm and the permit may be used for hunting and/or fishing when in possession of the appropriate valid license.

3. Applicant must be 18 years of age or older.

An interested person must apply in person in the County Treasurer's Office present a valid hunting, fishing, or furtaking license and another valid form of identification (preferably a driver's license).

The fee for the Sportsman's Firearm Permit is \$6.00. Mrs. Glass points out this is for a five-year period. Under the previous Provisional Firearm Permit, a separate permit would have been required not only for hunting and fishing, but for each firearm covered by the act and carried by the applicant.

**To the Editor:****Do We Really Know What's Going On??**

I'm a new resident to the Dillsburg area, I chose to build a home and start a family in Dillsburg. Because, I liked what I saw. A nice homey town, nice people, friendly people.

A place I knew I could be happy and feel safe about raising a family. So, my husband and I looked for property, to build a home. That we could settle in and become a happy and hopefully a good neighbor, to all we came into contact with.

A year ago September we found the property. It was full of grandeur and wonderful prospects. We were thrilled. We bought the property, built a home, only to find out that we were going to be parents. Our dream, was truly unfolding.

In this neighborhood, we were the first to build and move in. As days went on new homes were built. And we were blessed with wonderful neighbors. We just knew we had made the right decision. Then it happened....our wonderful dream, has turned into a living nightmare.

A short time ago, the developer of our area informed us, that there would be a road put in, at the back of our property line.

Most of you are probably thinking, so what!!! Dillsburg is in a growth spurt. But,!!! the nightmare is this. I live on half an acre, 80 feet from my front door is a road. Now, 100 feet from my back door will be a road. I'll be living, as will my neighbors on virtually an island. I personally feel this is a gross mistake in planning.

My questions to anyone who may be able to answer them are as follows...

1. How can this be allowed to happen?
2. How was this plan ever approved?
3. Has greed taken over good judgment and responsible development of "OUR" town?
4. How can anyone sleep nights, knowing their turning other peoples dreams into living nightmares?

My husband and I, and many other people that we've talked to, are amazed that the placement of such road (on our back property line) would even be suggested. But, even more surprised that the zoning board and township supervisors approved said road.

I'm sure, alot of you are asking, didn't you as a home buyer, inquire about the possibilities of development in the rear of our property?

Yes, indeed we did ask, and if we were told the truth what was actually being planned we would not have bought this lot to have our dreams crushed. We were not given the proper information to make an intelligent choice. We are now being forced to live in a situation which will soon become a local atrocity.

I ask each and everyone of you, as a friend and neighbor.

Do we really know what's going on?

**You Say Stoney, I Say Stony**

One day while out for a drive, local scout leader Dick Hamlet, noticed the street sign on Stony Run Road where it starts at Warrington Road, spelled "Stony".

Where the same road intersects with Rt. 74, however, it is spelled "Stoney", with an 'e'.

Hamlet was, as always a good scout should be, prepared. He promptly pulled a 35mm camera from his rucksack and snapped these photos to prove his story.

To get to the bottom of things we contacted the Dillsburg Post Office for their spelling.

Postmaster Marlin Darr says, "Postal records show it is spelled both ways."

According to Darr, when house numbering was completed by the townships there were differences in spellings.

Carroll Township and Monaghan spell it Stoney, while Franklin Township spells it Stony (without the "e").

On a Carroll Township zoning map the creek is spelled Stony, but the road is Stoney. Now which is it going to be?

## Murphy Tops Silver Spring Sportsman

John Murphy drove the Highlands' Tire Co. Sportsman to his third win of the season in racing action Saturday, July 8 at Silver Spring Speedway. Murphy began the twenty-five lap event from the eighth starting position. At the drop of the green flag, it was Dave Cordier making a straight line for the front of the pack. Cordier moved from his ninth starting position into the lead in just four laps. Murphy moved into the front running spot on lap eight sneaking past Cordier on the bottom of the first and second turns. The five time track champion moved up to the cushion and held on following a lap twenty-one restart to win the event.

Dave Cordier turned in a very strong run to gain runner-up honors. The No. 76 once again looked like the car that Cordier drove to three feature wins in 1988 with Dave wheeling around the bottom of the race track. The second place was Cordier's best finish since his week two feature win and gave the popular Shoemakersville driver and his hard working crew a needed lift.

Third place finisher Larry Jackson just keeps on rolling along. Jackson is the current Stroh's series point leader and with good reason. The defending champion has been in the top five in sixteen out of twenty-one Stroh's feature events. Howie Locke has been moving up in the point standings. His fourth place feature finish continued his string of top finishes. Danny Hager finished in the fifth finishing spot in front of some close friends. It was Auto Racing Club of Hagerstown night at Silver Spring and Hager and his car owner Hal Bitner are both members of ARCH with Bitner a

past president of this fine racing organization.

Smokey Snellbaker finished sixth having moved by Rich Eichelberger on the final lap of the race. Early race leader John Ebersole was the eighth place finisher. It was a nice job turned in by Ebersole and his best finish of the season. The ninth finishing position went to the No. A-1 driven by Dwight Leib with Bob Fannasy rounding out the top ten.

Sportsman qualifying events went to Dave Cordier, Jim Shuttlesworth and Steve McNair with Scott Ausherman winning the consi. Ausherman was unable to start the feature event after the flywheel exploded as he crossed the finish line and a piece of flying debris cut Ausherman's hand.

In Limited Late Model racing action it was Rod Clouser's night to shine. Clouser drove his interstate 81 Ford Thunderbird to the twenty lap feature win. It was his first feature win ever after eight years of competition. Clouser has been improving every race and was fourth the week before. He moved from his fourth starting position past Harold Beinhower on lap four to take over the lead. A hard charging John Provenza applied lots of pressure but Clouser was equal to the task and crossed the finish line a scant car length in front.

John Provenza came back from his first ever feature win the previous week to run second. The third finishing spot went to Charlie Kope. Carl Graves had a top finish placing fourth in the No. 27. Mark Billet maintained the point lead with a fifth place feature finish. Mark has been out of the top five only twice so far this season.

Barry Howard was sixth for the third time. Howard's driving performance in recent weeks has him moving up through the point standings. Jim Shuttlesworth was driving in both the Sportsman and Limited Late Model divisions. After an eleventh place finish with the Sportsman, Jim drove to a seventh place feature finish with the Luper Late Model No. 06. The flying firefighter Ken Riland vacated the drivers seat of the No. 06 several weeks ago.

**Q. Say it ain't so! Is it true that Edward Woodward's "Equalizer" has been cancelled by CBS? How come all the good shows get the axe, and we are left with mindless junk on the airwaves? D.M., Buffalo, N.Y.**

A. Unfortunately, as of this writing, the show — which is one of my personal favorites — is not on the CBS fall schedule. However, "Equalizer" executive producer Jim McAdams is hoping for a reprieve from the network. Edward Woodward, who was so wonderful as "McCall" on the series, is not as optimistic. McAdams is hoping for the "Equalizer" to return to the airwaves next year with a couple of two-hour movie specials. The idea might just work since "Perry Mason" has had tremendous success with this format.

What finally did the "Equalizer" in? According to McAdams, CBS did not really promote the show enough, and the change in time slots from Wednesday to Thursday evening certainly did not help either.

The "Equalizer" was on the air for four seasons, and while Woodward is open for another series, it would have to be a very good one in order for him to return to the weekly rat-race of a series. Mr. Woodward suffered a heart attack in 1987, but currently enjoys excellent health.

**Q. Has Diana Ross retired? B.E., Cross City, Fla.**

A. No. In fact, Ms. Ross is currently on the concert tour circuit playing to full houses. In addition, she has a new album out titled "Workin' Overtime," and a hit single by the same name ready to take over the number one slot on the Top Black Singles charts. Ms. Ross' new album marks her return to Motown Records.

According to Diana, she took off time from performing to have children after her marriage. In fact, Diana had two children within 10 months of one another. According to Diana, "I will never retire as long as my fans want to see me."

**Q. Is there going to be a movie on the life and times of Truman Capote? R.T., Delray Beach, Fla.**

A. At this particular time, there are no set plans for a movie. However, a one-man play by playwright Jay Presson Allen titled "Tru," will be opening at Vassar this July. If all goes well, the play could make it to Broadway. Actor Robert Morse will star.

**Q. Could you please give me some background on Victor Kiam, who does those commercials for Remington razors, etc.? G.H., San Diego, Calif.**

A. The man who will give you your money back if you are not satisfied with his products is also the owner of the New England Patriots of the National Football League. In addition, Kiam has a new book out on his business genius titled "Live To Win." However, I notice that when the Patriots play a bad game, he does not give back money to the ticket holders. Kiam's new book will be published in the United States by Harper & Row.

**Q. When will we see a movie on the life of Lucille Ball, and who do you think will play the late, great comedienne? L.J., Los Angeles, Calif.**

A. Lucille Ball's son-in-law, Laurence Luckinbill (who also stars in "Star Trek V" as Spock's half brother) says the family — Gary Morton, Lucy's widower, and Lucie and Desi Arnaz, her children — are still hurting too much to even consider getting involved with a film for some time.

**Q. Where was Connie Chung born? I understand it was China, but someone else said it was England. Who is right? M. Ruiz, Troy, N.Y.**

A. Connie, who is a CBS news anchor, was born in the United States. Her parents are native Chinese.

**Q. I love Lee Majors. Why doesn't he do another series, and will he ever work with his former wife, Farrah Fawcett? Wendy, Topeka, Kan.**

A. Lee prefers doing occasional TV films rather than be tied down to a regular series. From what their mutual friends say, Lee and Farrah are friendly and if the script was good enough, of course, they'd work together.

**Q. I truly enjoy "21 Jump Street" and Johnny Depp. Are there any big screen projects in Depp's future? K.H., Lansing, Mich.**

A. Johnny will be starring in a new movie titled "Cry Baby," which is directed by John Waters, most recently responsible for the hit flick "Hairspray" starring the late Divine. With Waters at the controls, this flick is sure to be a campy favorite among movie-goers. In fact, Waters has put together a very talented and controversial cast along with young Depp. Others now shooting the flick in Baltimore, Md., are Amy Locane, Ricki Lake, Iggy Popp, Willem Dafoe, Polly Bergen, David Nelson, Joey Heatherton, Stephen Mailer, Mink Stole, Troy Donahue, and Patty Hearst in her film debut. Also, joining the cast is former porn-queen Traci Lords, who portrays Patty Hearst's daughter in the flick. Release of the film will be next spring.

Tuning In  
by Seli Groves

Rock Hudson arrived in Hollywood in 1946 with no acting experience and no contacts in the movie business. Ten years later, he was nominated for an Oscar for his work in the film, "Giant." On Sunday, July 16, Cinemax's "Crazy About the Movies" series airs a special edition called "Rock Hudson: Tall, Dark & Handsome" (8-9 p.m. ET). This documentary is a sensitively drawn portrait of the late actor as he moved out of the old "studio system" into stardom in films, on television, and even in the medium he once thought he could never challenge, the stage.

Rock is seen in clips of many of his movies. There's also a clip of a TV talk show on which he and Carol Burnett discuss their work in the play, "I Do, I Do." Other features include Doris Day eulogizing her good friend; Rock's never-before-broadcast audio interview in which he talks about his career and his admiration for costars, Jane Wyman, Elizabeth Taylor, and Doris Day; as well as in previously unseen footage from his private home movie collection. Former costars Tony Randall, Elaine Stritch, Elizabeth Taylor and Susan Saint James, share their memories of Rock. (NOTE: additional play-dates are July 19, 22, 25, 27, and 30.)

Speaking of Carol Burnett, she and Julie Andrews will finally be reunited next season in ABC's "AT&T Presents Julie and Carol: Together Again." The two have been friends since Julie guested on the old "Garry Moore" show on which Carol was a regular. They went on to do the by-now classic TV show, "Julie and Carol at Carnegie Hall."

This reunion was some 20 years in the making. Somewhat overdue? Yes. But not a moment too soon for the fans of the talented twosome. We'll take them whenever we can. No broadcast date yet, but don't be surprised to see it set for the November sweeps period. P.S. Carol will also be back in a comedy series next season on NBC. She'll star in a half hour comedy in which she plays a different character each week.

**TAURUS** (April 20 to May 20) This week will bring favorable developments for business progress. Partners work well together this time as you each reach a better understanding of one another. An upcoming get-together will be even more exciting than you even anticipated.

**GEMINI** (May 21 to June 20) This week a younger member of your immediate family will test your limits. While you have your mind focused on a future trip, romance suddenly comes to the forefront. In addition, deliberate further about an investment you are contemplating with a friend.

**MOON CHILDREN** (June 21 to July 22) Be careful what you say to a very sensitive friend or mate this week. The wrong word now could hurt someone's feelings for a very long time. An overly familiar attitude could hurt your chances on the job. Financial prospects are looking up, if you use creative talents to their utmost.

**LEO** (July 23 to August 22) More patience and clear thinking are required regarding a very important work project. Shopping is a plus this week if you keep spending within reasonable limits. This weekend is an excellent time to spend time with the elderly members of your family.

**VIRGO** (August 23 to September 22) This week you will have excellent new ideas about how to increase your personal income. Think about a quick trip as the time is excellent for such a holiday. Be sure to include younger members of your family in social activities. Be wary, though, of careless remarks.

**LIBRA** (September 23 to October

22) You may feel a bit stymied on the job, but your opinions are sought after by honchos. Since you function well in group activities, now is the time to get out and about. Romance is highly favored this weekend for singles. Married couples should enjoy renewed harmony and romance as well.

**SCORPIO** (October 23 to November 21) You have objectives that you want to achieve on the homefront. Let other family members and friends have their say as well. Avoid that tendency of a dictatorial nature, and cooperation is assured. Just don't come on too strongly.

**SAGITTARIUS** (November 22 to December 21) Though you're good at promoting yourself in business and speak eloquently on cultural interests, you may be a bit heavy-handed with a family member. If you are in a shopping mood this week, be wary of bargains that sound too good.

**CAPRICORN** (December 22 to January 19) This is not the week to get financially involved with friends. However, you're on the right track regarding long-range security and investment goals for yourself and your family. An upcoming trip is a very definite and positive possibility.

**AQUARIUS** (January 20 to February 18) Financial gains are on your horizon. While you may disagree with some advice you hear from a loved one regarding your career, your enthusiasm to get ahead will remain undiminished. This is an excellent time to make a major purchase for the home.

**PISCES** (February 19 to March 20) Be wary of personal or professional advice you may receive this week from a friend which may be very misleading. Dating and recreational pursuits are highly favored this week. As the week comes to an end, the pace quickens as you are on your way to a better career position.

Pet Care  
by Cleo & Brad Conrad

**Q. About a year ago, I bought my daughter a parakeet. One morning, she found the bird dead in its cage. How could such a young bird just die like that? It seemed in good health.**

A. It seems that pet birds are probably the most neglected pets people own. We have found that most bird owners do not know how to care for their pets. The fact is, birds need routine veterinary care as much as any other pet. The routine examination should include a blood test, fecal analysis, urine analysis (if possible), and a check for parasites which routinely plague birds.

The problem with birds is that they rarely show signs of illness until it's too late. The most common ailment that will do a bird in is a respiratory infection. Cages should not be kept by windows since "fresh air" is actually not good for the bird who can catch cold easily.

If your veterinarian is not skilled with birds, ask for a recommendation of a good avian vet.

This Week In History

This week in 1787, the Northwest Ordinance was adopted by the Continental Congress on July 13 ... In 1797, the U.S. frigate United States was launched at Philadelphia on July 10 ... In 1804, Vice President Aaron Burr shot Alexander Hamilton in a duel after a long political rivalry on July 11. Hamilton died the next day in Weehawken, N.J. ... In 1945, the first atomic bomb was produced at Los Alamos, N.M. and exploded at Alamogordo, N.M. on July 16 ... In 1967, black riots in Newark, N.J. killed 26 and injured 1,500 with over 1,000 arrests on July 12-17 ... In 1973, a Brazilian Boeing 707 crashed on approach to Orly Airport in Paris, killing 122 people on July 11 ... In 1974, John D. Ehrlichman was found guilty of conspiring to violate the civil rights of Dr. Lewis Fielding on July 12 ... In 1985, the U.S. voted to impose economic sanctions against South Africa in protest against apartheid on July 11.

Home hints

**PRESSURE COOKER SENSE** — A pressure cooker minus the lid serves as a double boiler when making pudding, sauces, etc., and heats even more quickly since the cooker is a heavy gauge metal. Also, the pudding, etc., tends not to stick or burn as quickly, while stirring constantly.

For pressure-cooker spaghetti, add water to cover one pound of spaghetti. When the vent rises, shut it off. With steam in, spaghetti will be ready in 25 minutes instead of cooking 30 minutes.

Many thanks for the above Home Hints from Elizabeth M. in Cherry Hill, N.J. Last week's Home Hints also came entirely from Elizabeth, who is obviously a very busy, efficient home-maker!

**GRATE TIP!** — I make home-made pizza. An easy way I discovered to crumble that block-type mozzarella cheese is to first freeze it, thaw it out in the microwave on medium. Defrost for two-and-a-half minutes. The cheese will then easily break into tiny pieces. It sure beats slicing or grating! Valerie H., Brooksville, Fla.

**MEASURE-PERFECT** — To measure a one-half cup of solid shortening, use an eight-ounce measuring cup. Fill it half full of cold water, then add the shortening until the water reaches the one-cup level. Pour off the water and the shortening is easy to remove from the cup, no mess, no scraping. Just be sure the shortening is pushed below the water level for an accurate measurement. Randi P., Potsdam, N.Y.

**STEM REMOVAL** — Whenever I went strawberry picking, I dreaded removing the stems while cleaning the berries. I found a perfect tool and now it's a pleasure. I use a potato peeler. The tip is sharp and small enough to do a wonderful job. Karen G., Lyman, Wyo.

**WATERING THE PLANTS** — I don't know how many people know this, but the water from goldfish bowls is great to use on houseplants. It contains fertilizer that does wonders for them and helps them thrive. Maria T., Fargo, N.D.

## A Hamilton Car and Smith Win Mitch Memorial

Stevie Smith continued his winning streak with an overpowering performance in the 30-lap Mitch Smith Memorial for Sprint cars Monday night, July 3, at Williams Grove Speedway.

Smith started third in a strong 24-car field and took the lead from Frankie Kerr on the second lap. Despite several restarts nobody was ever able to mount a serious challenge to the driver of the Hamilton GMC #77.

Smith's fourth victory of the season was worth \$3200, and it allowed him to increase his lead in the Busch beer point standings.

Joey Allen in the Allen Enterprises #1A took the runnerup spot from Kerr on the final lap and collected \$2200. Kerr settled for third in the Fetter Commercial Music #77K. Paul Lotier drove a strong race in Ken Ruch's #7 and finished fourth. Stevie Smith, the winner's father, completed the top five in the Leiby's Mobile Homes #19.

Kenny Jacobs, Steve Siegel, Bobby Fletcher, Steve Stambaugh and Johnny Mackison finished in positions six through ten respectively.

Heats for the 35 cars were won by McMe DeSantis, Steve Smith and Dan Dietrich. Jim Nace won the consolation race.

Allen set fast time in qualifications with a lap of 18.84.

Al Hamilton, owner of the winning car, was especially happy with his victory since the late Mitch Smith won his last race in a Hamilton #77.

The victory for the youthful Smith was his fifth in the last six days, having won at Port Royal Wednesday, Williams Grove Friday, Selinsgrove Saturday and Susquehanna Sunday.

He is the first driver this season to score back-to-back victories here and ran his career total of feature wins to 14 at Williams Grove.

Bob Beidleman won the 20-lap KARS Limited Sprint car feature for the third time this season.

Tim Dietz finished second and Mike Kratzer, Mike Myers, Jack Helget, Sam Ross, A.L. Kuhn, Denny Gross, Dave Smith and Tom Spriggle completed the top ten.

John Martin and Jim Novinger won Limited heats for the 18 cars in competition.

## Former Grove Regulars To Return July 27-28

When the World of Outlaws return to Williams Grove Speedway on July 27-28, it will be a homecoming of sorts for several drivers who were once regular competitors in weekly Sprint car competition here.

Drivers such as Doug Wolfgang, Bobby Allen, Keith Kauffman, Bobby Davis, Kenny Jacobs, Steve Siegel, Donnie Kreitz, Cris Eash, Jac Haudenschild and Frankie Kerr are expected to return to Williams Grove for the two-day WoO program which offers nearly \$56,000 in prize money.

Those ten drivers have combined for 123 feature victories at Williams Grove Speedway.

Allen, who won two of the three World of Outlaws features run here earlier this season, ran his career total to 35 feature wins at the Grove. Kauffman owns 33 victories here and Wolfgang 20.

Kauffman was the track champion here in 1984 and 1985. Davis copped the Williams Grove track title in 1983, and is currently the World of Outlaws point leader.

Although Wolfgang is the number one driver in the country according to the National Sprint car poll, he was shut out of victory lane at Williams Grove during the Outlaws' spring swing.

Eash, the 1987 World of Outlaws rookie of the year, stopped at the Grove earlier this season and won a feature on an open date on the WoO schedule.

Kerr and Jacobs also own Williams Grove victories in '89, but both have been spending considerable time on the road this year.

Davis, Haudenschild, Eash, Siegel, Kauffman, Wolfgang and Kreitz are all in the top 15 in the World of Outlaws point standings.

The July 27 program will consist of time trials, heat races, a Fram Dash, a B-Main and a 20-lap feature. The top four finishers in Thursday night's feature will become guaranteed starters for Friday night's 30-lap A-Main.

The July 28 program will offer time trials, heats, a B-Main and a 30-lap feature which pays \$8000 to win.

Tickets for the July 27-28 World of Outlaws program are now on sale at the speedway office.

## How to Get Along Better With Your In-Laws

Although comedians often amuse audiences with stories about in-law relationships, many people suffer extreme anxiety over the protocol of marriage.

From the moment a couple is engaged, they are expected to treat strangers—the in-laws—as close relatives. But relationships take time to become close and affectionate. Couples do not get that time.

Many things have to be considered when a marriage creates several new relationships. But even the marriage itself presents hundreds of dilemmas: Who will pay? Who plans the wedding? Who wears what? What kind of service? After the wedding, things can get even more awkward. What do you call your new parents-in-law? How do you get along with your spouse's siblings?

Leah Averick, author of *How In-Laws Relate* (Shapolsky, \$14.95), offers practical advice for anyone confronted with new relatives. She suggests people welcome future in-laws into their lives with good feeling, a lack of hypocrisy and compromise. Her guidelines include:

- Children-in-law should not expect their new parents to treat them with excessive admiration or generosity. If you are respectful and polite to your in-laws, chances are they will respond in kind.
  - The bride and groom should run the wedding—regardless of who pays for it. The couple should assert its desires and everyone else involved should respect those wishes.
  - For the sake of a better relationship with an in-law, get to know him or her—his good points, accomplishments and interests. Trust your judgment, but don't be judgmental.
- For more helpful information on in-laws, order a copy of *How In-Laws Relate: It's All Relative* by sending \$14.95 to: Shapolsky Publishers, 136 West 22nd St., New York, NY 10011.
- Everyone experiences difficulties with his in-laws. Because the relationships are so charged emotionally, it's easy not to take them seriously. In-law relationships do not have to be frightening, but they aren't a laughing matter.

## Sprints and Limited Sprints Friday-WoO July 27-28

The Limited Sprint cars return to Williams Grove Speedway this Friday night, July 14, in a dual card program with the Sprint cars.

The first heat is scheduled to start at 8:00.

In the Grove's Sprint car division Stevie Smith has opened a lead over his fellow competitors in the Busch beer point standings. Steve Smith, the leader's father, seems to have the best shot of any other driver of making a run at the title.

Others still in the hunt include Kenny Adams, Fred Rahmer and

Paul Lotier.

In the Limited Sprint car division Bob Beidleman has won three of the four races run at Williams Grove. Beidleman, a 10-year veteran of Sprint car competition, has been very impressive in the Downtowne Records #81.

Beidleman's strongest competition this week may come from Tim Dietz, who has been close to a victory in his last two appearances here.

Local driver Bobby Essick, a former speedway concession worker, won the only other Limited Sprint car feature run here.

On July 21, the Super Sportsman cars return to Williams Grove along with the Sprint cars.

The Super Sportsman division is the main attraction at the nearby Silver Spring Speedway, and they provide some of the closest competition to be found in open wheel racing.

The Sportsman cars closely resemble Sprint cars in appearance, but have smaller top wings, a lower cubic inch engine displacement, and are self-starting. The Sportsman cars also have a minimum-weight requirement while the Sprint cars do not.

A two-day World of Outlaws program will close the Sprint car action at Williams Grove in July.

The Outlaws will be at the Grove on Thursday evening, July 27, and again on Friday, July 28.

Hanover, PA's Bobby Allen won two races the last time the Outlaws were in town and Sammy Swindell of Bartlett, TN, also won a WoO race here back in May.

Reserved seat tickets for both nights of World of Outlaws racing are currently on sale in the speedway office. Credit card orders are also accepted at 717-766-4778.

## Getting Serious About Humor

If you look at the Top Ten TV list for just about any week, chances are six of the shows on the list will be sitcoms or comedy specials. According to Jan Marshall, America's foremost female humorist, these programs aren't only entertainment—they're a necessity.

Marshall, founder of the International Humor Institute (whose board of advisers includes Norman Cousins, Steve Allen, Larry King and John Cleese), doesn't mean that we need a *Cosby Show* to survive, but she does mean that humor is one of the most important aspects of our lives.

"People need to look at their lives in a humorous way," she explains. "It's how you perceive things that makes your life and work enjoyable."

"For example, bumper-to-bumper traffic is probably one of the greatest problems of the 20th century. But if you're stuck in it, what's the sense in getting angry? Getting angry is as effective as nailing Jell-O to a tree! How about choosing another option: play a funny tape, sing at the top of your lungs (with the windows up—in case somebody throws a tomato at you) or recite your brilliant ideas into a cassette recorder."

Marshall has also adapted her philosophy to the corporate environment. In her popular humor seminar, "Lightening Up in the Bedroom and the Boardroom: Using Humor for Health and Profit," she has taught top management from such companies as ARCO and Lockheed, and students at Redlands University, Antioch and other schools how to alleviate the seriousness of the workplace and life in general.

Marshall says that the least separation between work and plays leads to the most satisfying life.

"Now I'm not saying wear clown hats to work—save that for the bedroom," she says. "But a little bit of levity in the day really does make a difference. Scientific studies have shown that happy employees are healthier and more productive, so remember that there are two bottom lines—one is the profit, of

Humorist Jan Marshall tells us that "not a shred of evidence exists that life is serious."

course, but the other is enjoying the journey."

Marshall's latest project is Humor Rooms Inc., which use the power of positive emotions to promote harmony among individuals, corporations, nations and especially hospitals.

"The humor rooms are an additional therapeutic method for hospitals," Marshall says. "Everything in the room is designed to strengthen the immune system. The colors, books, videotapes, live entertainment and humor consultants are all integral to the innovative healing concept. The rooms are also geared toward combating staff stress and burnout."

For information on Marshall's professional speaking seminars or humor rooms, write to: International Humor Institute, 12322 Viewcrest Road, Studio City, CA 91604, or call (818) 766-8865. For her humor package, which includes her book, *Still Hanging in There*, and her motivational cassette, *Lighten Up*, send \$15 to the above address.

"I think the natural condition of life is to be happy," Marshall says. "While there are threads of pain, sorrow and major disappointments that must be addressed and healed, in general the truth is that not one shred of evidence exists that life is serious."
